Hitting Video Analysis & Drills

Description

This clinic is a one hour session designed for ages 10 and older (including adult baseball players).

You will be filmed from multiple angles while you swing hitting a ball from a tee. This will capture your stance, your wrist action, your follow through as well as how level you are swinging. Along with you, our instructor will review and analyze your performance on our large screen TV. After viewing you will return to the practice area and work on improving your swing as you were instructed.

Bring a friend to participate with you and you both qualify for our "Buddy System" price.

Instructor:

Concordia University Coach
Mitch Knox
